

IAEDP AZ CHAPTER 2009

Collaboration & Education to better serve the AZ ED Community

March 2009

A Message from the President

Fellow Colleagues,

It is with excitement and anticipation that I write to you about the IAEDP AZ Chapter. We came together in 2008 and continue to march ahead with a strong, multi-disciplined board of individuals who genuinely care about the educational development of the professional community. We believe that each one of us can make a difference; this is captured in an art piece that was donated to our chapter by a local artist. The token art piece is displayed at our chapter events on the "Resource Table" which is for all of our guests to share their information. We are committed to laying a solid foundation of public service for our community and future chapters. You are invited to be a part of this mission.

I will be attending the national IAEDP Conference in CA. It is exciting to know that our chapter is joining the ranks of many other new chapters... Northern CA, Las Vegas, and Florida! In the meantime, I hope you will save the date, March 27th, 2009, and join us as we present one of the valley's top dentists, Dr. Peggy Myers, DDS. Please consider how you might be involved in this creative and growth-oriented chapter.

On behalf of the IAEDP AZ Chapter,

We look forward to seeing you soon!

Warm Regards,

Julie Vaughan, M.Ed. LPC NCC CC

America the Beautiful

America the Beautiful a documentary by Darryl Roberts has been viewed by thousands of individuals around the country. The focus of the film is to show the extremes we go to for beauty and perfection in this country. While most of the attendees are female at Darryl's college screenings, I was most impressed by the questions and thought-provoking comments made by the male audience members. These young men were asking how they could help the women in their lives feel good about themselves. They were suggesting ways to combat our obsession with perfection. These young men were not buying into the media driven ideals of beauty but instead were looking for ways to help all of the beautiful women in their lives. It was promising to see the male point of view.

-Paige Dewett, AZ IAEDP Board Member and part of the Education Team
