

Applicant Log of Patient Care Hours: Traditional Certification

The following log for recording supervised patient care hours is to be used by an applicant seeking the iaedp certification of CEDS, CEDRD, CEDRN or CEDCAT. Please use a separate log for each supervised work setting and for each status (Intern or Licensed for CEDS and CEDRN candidates, Intern or Registered/Certified for CEDRD and CEDCAT candidates). These logs are for your records to coordinate your time with your approved supervisor's documentation of patient care hours and do not need to be included in your final certification application packet.
